

ATLANTA BETTER BUILDINGS CHALLENGE

**SPONSORSHIP OPPORTUNITIES
2016**

ATLANTA BETTER BUILDINGS CHALLENGE

The Atlanta Better Buildings Challenge, or Atlanta BBC, is a nation-leading public/private initiative. Led locally by the City of Atlanta Mayor's Office of Sustainability and managed by Central Atlanta Progress and the Atlanta Downtown Improvement District, the goal of the Atlanta BBC is to reduce energy and water consumption by at least 20 percent in participating buildings across Atlanta by 2020. Over 400 buildings, representing more than 100 million square feet, are now participating in the Atlanta BBC, with broader participation expected over the next few years.

ATLANTA BETTER BUILDINGS CHALLENGE

SPONSORSHIP OPPORTUNITIES

Become a sustainability industry leader.... The Atlanta Better Buildings Challenge provides a unique and captivating way for sponsors to reach key audiences. We offer 4 levels of sponsorship that can be customized to effectively achieve your company's marketing objectives. Additionally, we are open to exploring customized sponsorship arrangements, including recurring multi-year options at a "Sustainer" level, upon request.

ATLANTA BETTER BUILDINGS CHALLENGE

WHO WILL THE BETTER BUILDINGS CHALLENGE REACH?

Communications from the City of Atlanta Office of Sustainability, Central Atlanta Progress, Midtown Alliance, Livable Buckhead, and the Atlanta Better Buildings Challenge will reach a broad audience that includes property owners, service providers, financing institutions and municipalities.

ATLANTABBC.COM

Description: Robust portal for news, events and information about the Atlanta Better Buildings Challenge. Features include participant roster, national Better Buildings Challenge updates, local events, and energy efficiency case studies. Created in 2015, an Energy Savings Dashboard now gives up to date program #s.

Traffic: On average, AtlantaBBC.com receives 4,000 hits per month.

ATLANTA BETTER BUILDINGS CHALLENGE E-NEWSLETTER

Description: Monthly electronic newsletter highlighting Atlanta BBC events and activities.

Dates: Monthly

Subscribers: 478 / Average Open Rate 34%

ATLANTA BETTER BUILDINGS CHALLENGE EDUCATIONAL SEMINARS

Description: Exclusive events for Atlanta BBC participants that highlight best practices in building energy and water efficiency. These monthly educational events provide an opportunity for program sponsors to present services to participants.

Audience: Atlanta BBC participants (property owners and facilities staff)

VENDOR EVENT:

Description: Annual gathering to provide participants an opportunity to connect with service providers, specifically program sponsors.

Date: May 2016

ANNUAL AWARDS EVENT

Description: Annual recognition event hosted by Mayor Kasim Reed awarding participant buildings which have achieved 20% savings in energy and/or water.

Date: Summer 2016

Audience: ~300-500 business, civic and community leaders

ATLANTA BETTER BUILDINGS CHALLENGE

MORE THAN GREEN

While the environmental benefits of programs like this are self-evident, the Atlanta BBC can also yield important economic benefits. Investing in Atlanta's activity centers through programs such as the Atlanta BBC helps keep the buildings attractive places to do business, particularly for entrepreneurs and small businesses. In fact, assessments on the first 20 million square feet Downtown point to a potential \$4.7 million in utility cost savings annually, providing building owners with an important price advantage and freeing up cash business owners can use to grow their businesses.

Programs like this have an important effect on employment. For every \$1 million spent to improve efficiency in commercial buildings, approximately 13 jobs are created.

And building owners profit too: A growing body of research shows that energy-efficient properties have higher occupancy levels, lease-up rates and sale prices than less efficient properties.

CURRENT STATISTICS (AS OF MAR 2016)

Approximately 100,000,000 total square feet, over 400 buildings committed to the Atlanta Better Buildings Challenge. 2015 Portfolio Energy Savings of 15.9% and Water Savings of

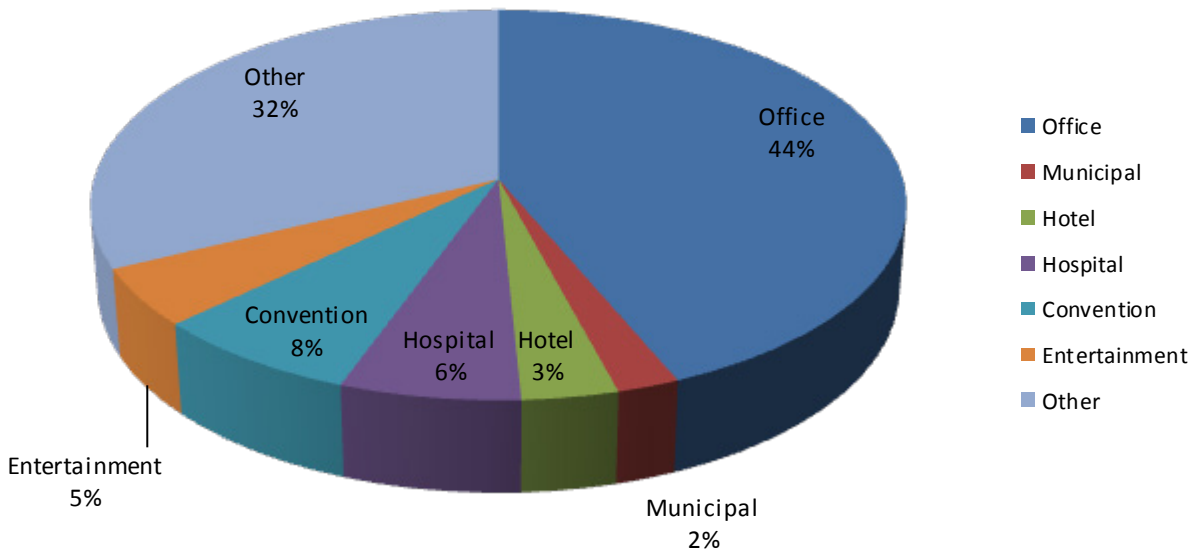

ATLANTA BETTER BUILDINGS CHALLENGE

A RECORD OF ACHIEVEMENT

Maria Vargas, director of the Better Buildings Challenge for the U.S. Department of Energy, called the Atlanta BBC “a model for the rest of the country.” Atlanta, she said, has distinguished itself from Better Buildings programs in other parts of the country by uniting business, government and nonprofits behind the program’s aims to drive energy and water upgrades of commercial and institutional buildings.

Atlanta’s public private partnership has been able to provide significant resources to support ABBC participants in identifying and implementing energy and water conservation measures. As a result of this participation in the ABBC, 64 buildings have received free assessments totaling over 37 million square feet.

Atlanta was the first city to complete its showcase project, the Boisfeuillet Jones Atlanta Civic Center. As a result of its complete energy overhaul, the city-owned property reduced its utility bill by 40 percent and will realize an estimated \$200,000 in annual energy savings.

Atlanta was one of the first cities, along with Seattle and Los Angeles, to join the challenge. The nationwide program now includes more than 30 cities, municipalities, school districts and state governments.
