ABBC LEVERAGING SUCCESS

In 2011, President Obama initiated the Better Buildings Challenge with the U.S. Department of Energy. Led locally by the City of Atlanta Mayor's Office of Sustainability in partnership with Central Atlanta Progress, Midtown Alliance, and Livable Buckhead, the Atlanta Better Buildings Challenge is working towards a goal to reduce energy and water consumption 20 percent in participating buildings across Atlanta by 2020.

To date, the Atlanta BBC encompasses more than 400 buildings in Downtown, Midtown, and Buckhead, with a total of more than 100 million square feet. In 2015, the Challenge achieved over 17% in energy savings and 22% water savings.
